The specifications of the sheet for current versions of Excel include: 1,048,576 lines per sheet 16,384 columns per sheet 17,179,869,869,184 cells per sheet a limited number of sheets per file, depending on the amount of memory available on your computer for Google Sheets: 256 columns per sheet 40,000 cells for all file 200 sheets on the spreadsheet file in both Microsoft Excel and Google's Google Every sheet has a name. By default, the sheets are called Sheet1, Sheet2, Sheet3, and so on, but you can change those names. In Excel, use the following combinations of quick access keys to switch between sheets: Ctrl-PgUp (page up): Move to the right Ctrl-PgDn (page down): Move left to Google sheets, The combinations of shortcut keys to switch between sheets are: Ctrl-Shift-PgUp: Move to right Ctrl-Shift-PgDn: Move left with the budget planner, you can wind through account payments without breaking a sweat and gain control of your finances, knowing where your money is going and how much you need to cover their expenses. Budgeting will help you become more aware of your income and expenses, so you can make sure that you spend in a way that supports your financial goals rather than wondering where your money went at the end of the month. If you've never budgeted before - or you haven't done it for a while - follow this guide. Here are the main steps to create your budget: determine and calculate your fixed expenses. Track variable costs. Create your savings. Debt relief. First, learn details on how to make a monthly budget that fits into your net income and then use this budgeting sheet to start tracking your money. Fixed Costs When it comes to budgeting, there are two categories of spending: fixed and variable. Fixed costs do not change from month to month and are non-negotiable. This category includes needs - such as housing, health insurance and transportation - and often make up a large part of your budget. Don't miss: tricks to take Fear from the housing budget is the most important part of your monthly budget money that you spend on housing. Whether it's the cost of a rental or a mortgage, housing is likely your biggest monthly expense. Research by the Bureau of Labor Statistics found that Americans spend an average of \$17,000 to \$18,000 on housing per year, which works between \$1,417 and \$1,500 a month. If you have a home, you should also include the cost of property tax when budgeting for housing costs. Staying healthy health insurance is not free, so you should include the cost of health care in your budget planner. Health care costs include health insurance premiums if you're not covered by work - or if you're top-up of your coverage through the private insurance market - as well as health care costs not covered by insurance and any money you spend on co-payments and deductibles. How much you spend on health care depends on your age, whether you are taking prescription drugs and the cost of premiums. On average, those ages of 65 to 74 spend the most - \$5,956 a year, or more than \$496 a month, according to the BLS. People between the ages of 55 and 64 are not far behind, spending an average of \$4,958 a year, which is about \$413 a month. Learn how to manage your money: The first thing you have to do with every transport salary is if you're not among the lucky few who can bike or walk everywhere you need to go, budgeting for transportation is almost as important as budgeting for housing. Depending on your life situation, transportation costs may include monthly subway travel, car payment, fuel leasing costs or vehicles. When budgeting for transportation, keep in mind that some components in this category are considered fixed, as do car payments, while others vary like gas. Overall, Transportation Costs of Americans average about \$9,000 each year, equivalent to \$750 each month. Related: Choose the right bank account for your variable expenses as opposed to fixed expenses, variable components of your budget will vary from month to month depending on your lifestyle. Some variable costs are absolutely necessary, such as food costs, while others are considered discretionary expenses like entertainment. Creating a budget will keep you from overspending on discretionary expenses, so you have enough money for essentials. No Food and Food Spending Tracker is complete without category for food costs. Food accounting is a key part of the budgeting process, and it should also include noting out and visiting restaurants. Don't forget about the food costs that slip past you - like the latte you paid in cash for; can work for a significant amount of expenses throughout the year. Gen Xers and early baby boomers spend the most on food on average, according to BLS - probably because of the larger family size than millennials. People aged 35 to 54 spend more than \$8,000 a year on food that runs works average \$667 per month. Find out: Insider grocery store hacks that will save you money Utilities While some utilities - like your phone, internet and cable bill - are fixed, many shift from month to month depending on the season. Gas and electricity bills, for example, will fluctuate as you crank up your air conditioner in the summer or heater in winter. Other utility costs to consider include water and garbage services. BLS reported that utilities cost Americans an average of nearly \$4,000 a year or \$333 a month. Entertainment and other extras living on a budget doesn't mean you can't enjoy it, so include entertainment costs in your budget template so you can maintain balanced spending habits. The average American entertainment costs about \$2,700 each year, which works up to \$225 a month. Your discretionary expenses may include movies, amusement parks, concerts, or other activities that you spend money on just for fun. Other expenses that will likely work your way into your budget include hair care costs like hair care and clothing. On average, clothing and personal care products cost \$2,430 each year, north of \$200 a month. Although you may not spend the same amount each month, deferring the care allowance ensures that you will have the funds necessary when you go to make a purchase. You should also make room in your fitness budget, even if it's a discount gym membership, because staying healthy can save you money over time. Building savings and eliminating debt One of the biggest benefits of capital management is getting overall financial health because you plan your spending to align with your financial goals. With this in mind, saving for the future to become financially secure is key for any budget. In terms of retirement, start setting goals and save as soon as you can. Online investment company Fidelity, for example, advises that you have 10 times your annual income saved by the time you reach retirement age - however, more than half of Americans will retire broke. The easiest way to put money away is to contribute to a 401K or individual retirement account. In your monthly budget, deduct this money from your monthly income right away, so you don't think twice about spending that cash, not. Consider automating your savings as part of your plan to create better money habits. Finally, you need a budget to reduce debt and finalize the debt. The vast majority of Americans have a mortgage, student debt, credit card debt or all three. Just like that, you make for retirement savings, set aside a percentage of your income once you get a salary put on eliminating any debt you may have. This same strategy can help you create an emergency fund in addition to your retirement savings, which will act as a social protection if you face illness, job loss or any other financial crisis.
